Thanks for the heads up. I had already spoken to them about it last week, and were supposed to deploy a database update today sometime to fix the issue. I'll circle back with them today.

Subject: Database error

Hi Emily,

A sub just made me aware of an error on the client intake form on the new database. They have a client in Kansas City, but when Jackson County is selected, KC is not in the "City" drop down menu as an option. Can you please let ITSD know that it needs to be added to the "City" drop down?

Thank you!

Carrie
